ABOUT **FLEXO SUMMIT ASIA**

Flexo Summit Asia 2026 is a premier residential summit for the flexible packaging, labels, cartons, and corrugated converting industries, scheduled on 5 - 6 August 2026 at Hilton, Bengaluru. Built as a knowledge-first platform, the summit brings together industry leaders, printers, converters, technology providers, and business decision-makers to discuss the future of flexography and packaging.

With the theme "FLEXO NEXT – Thinking Beyond Print," the 2026 edition focuses on innovation, automation, profitability, sustainability, and evolving market opportunities shaping the industry. The summit features curated sessions, panel discussions, leadership talks, and real-world case studies designed to deliver practical insights and meaningful industry learning rather than commercial presentations.

Known for its focused networking environment and high-quality audience, Flexo Summit Asia creates opportunities for collaboration, business connections, and future-ready conversations. More than just a conference, it is a platform where ideas, technology, and industry leadership come together to explore what's next for print and packaging.
